

IN THE CLAIMS

1. (Currently Amended) A nickel-containing alloy comprising:

about 1.5 to about 4.5 weight percent aluminum;

about 1.5 to about 4.5 weight percent titanium;

up to about 3 weight percent niobium;

about 14 to about 28 weight percent chromium;

~~about 0.99 to about 1.09 weight percent molybdenum;~~

about 0.01 to about 0.2 weight percent zirconium;

with the remainder being nickel, and wherein the atomic ratio of aluminum to titanium is about 0.5 to about 1.5.

2. (Previously Presented) The nickel-containing alloy of Claim 1, wherein a sum of the amount of aluminum and titanium is about 3 to about 9 weight percent, of the nickel-containing alloy.

3. (Canceled).

4. (Original) The nickel-containing alloy of Claim 1, wherein a sum of the titanium, aluminum and niobium is about 3 to about 12 weight percent, of the nickel-containing alloy.

5. (Original) The nickel-containing alloy of Claim 1, wherein the nickel is present in an amount of about 40 to about 70 weight percent, of the nickel-containing alloy.

6. (Previously Presented) The nickel-containing alloy of Claim 1, further comprising cobalt, carbon, zirconia, tungsten, boron, tantalum, hafnium, rhenium, ruthenium, or a combination comprising at least one of the foregoing.
